

Operational Enhancements and Improved Cargo Handling Efficiency Enable Record-Breaking Growth in Cargo at GIAL Terminal, LGBIA, Guwahati

- Sets new record with 42.43 MT cargo in a single day; surpasses monthly milestone by processing 844 MT
- The growth of 4.95% in daily cargo and 11.93% in monthly cargo at the GIAL terminal of LGBIA is from the previous highest single-day cargo of 40.43 MT and the previous highest monthly cargo tonnage of 754 MT, respectively.

Guwahati, 9 July 2025: On 28 June 2025, the GIAL terminal of Lokpriya Gopinath Bordoloi International Airport (LGBIA), recorded its highest ever single-day cargo tonnage of 42.43 metric tonnes (MT), surpassing the previous record of 40.43 MT set last year – a growth of 4.95 percent. This achievement was part of a broader upward trend that culminated in the GIAL cargo terminal, LGBIA, crossing the 844 MT mark in monthly cargo processed for the first time since commencement of operations date (COD). This is a growth of 11.93 percent. The previous monthly highest was 754 MT in January this year.

The record growth in cargo tonnage underscores the growing role of LGBIA as a logistics hub in the Northeast region of India. It is the outcome of focused operational enhancements, improved cargo handling efficiency, and the airport's strategic importance in connecting Northeast India with key domestic markets.

The GIAL cargo terminal has consistently demonstrated strong growth in cargo volumes over the first quarter of FY2025-26, with year-on-year comparisons reflecting a robust upward trajectory:

Month	2024 (MT)	2025 (MT)	Percentage Growth (%)
April	356	698.05	96.08
May	389	741.38	90.59
June	376	845.7	124.93

Agartala and Imphal remain the prime contributors in the Northeast region, while major destinations across the country include Mumbai, Delhi, Kolkata, and Bengaluru. The airport has seen strong import activity from Bengaluru and Jaipur, with flowers being the primary import commodity, contributing to the region's growing floral trade.

"These achievements are not only milestones for LGBIA's GIAL cargo terminal, but also significant indicators of economic vibrancy in the Northeast. The growing cargo movement

reflects the trust of our partners and the region's increasing integration with national supply chains," said a GIAL spokesperson.

With infrastructure enhancements and a focus on streamlining operations, LGBIA's GIAL terminal is set to further strengthen its role as a cargo gateway for the Northeast.

About Guwahati International Airport Limited (GIAL)

Guwahati International Airport Limited (GIAL) is managed by Adani Airport Holdings Limited (AAHL), a subsidiary of Adani Enterprises, the flagship company of the globally diversified Adani Group. GIAL is a Public-Private Partnership (PPP) venture between AAHL and Airport Authority of India (AAI) in a concession agreement of 50 years. AAHL aims to converge India's biggest cities in a hub and spoke model through the Group's proven strength in developing and managing complex transport and logistics hubs.

Lokpriya Gopinath Bordoloi International Airport, known as Guwahati Airport, is the primary international airport in Northeast India, located in Borjhar, approximately 26 kilometres from the of Guwahati, Assam. Named after the first Chief Minister of Assam, Gopinath Bordoloi, the airport serves as a crucial gateway to the Northeastern states, connecting the region to major domestic and international destinations. Guwahati Airport offers a range of services, including retail outlets, dining options, lounges, and business facilities, ensuring a comfortable experience for travelers.
